SUMMARY

Dynamic and results-driven Acting General with a strong academic background and proficiency in C Language, Python3, and UI design. As a UI designer and frontend developer, I specialize in crafting intuitive digital experiences. In my current role at GDG-On Campus ABESEC, I've led impactful initiatives and demonstrated a blend of creativity and technical expertise. Passionate about technology and innovation, I thrive on challenges, aiming to deliver standout results and inspire growth in every endeavor. Proficient in HTML5, CSS3, JavaScript, and ReactJS, with experience in tools like Canva, Figma, and GitHub, I am dedicated to achieving excellence in the field of technology and design.
